Figure 9 - Operator using the hoist controls of Compact hoist mounted on Walk-Thru stirrup of MKD Work Cage.

Figure 10 - Operator using the optional pendant controls of Compact hoist mounted on Walk-Thru stirrup of MKD Work Cage.

MKD WORK CAGE WITH WALK-THRU STIRRUP & COMPACT HOIST

Figure 11 - View of an optional 6-Foot Pendant Control (P/N: 41021752-6) and its connection on the Compact hoist. Pendant Control is connected by simply removing the Jumper Plug connection from back of hoist and connecting the Pendant Control connection*. Hoist can then be operated by either the hoist mounted controls or the pendant controls.

***NOTE:** For added safety, it is always best to remove the voltage power source from the unit, before removing or connecting any connections.
